Excellent Quality

Great Prices

We always have items on special

We are not a retail shop.

We wholesale directly to our clients from our various suppliers

Customers gain a price advantage because our expenses are less (please compare our prices with the large retailers, our prices are normally better)

Orders are not dispatched from our offices. You order directly from us, we then deliver directly to you, at a delivery cost, or customers can collect via their couriers (or personally)

We work between our small showroom in Wilgeheuwel, Roodepoort & our registered office in Risidale, Jhb.

Minimum quantities may apply in order to take advantage of our great prices

Please schedule an appointment should you wish to visit us, and/or ask for our referral list of satisfied customers.

Competitive Pricing & Quality Products

Our customer pricing is always competitive

We price our products in the following way

- 1) We display our List Price (on product slides, price lists & quotations)***
- 2) Discounts are then applied, based on the Quantity required. We have minimum quantities per product***
- 3) Customers receive a Personal Customer Quotation which equals Actual Customer Price***

Quality Products

We only supply quality products, which have been personally tested and have proven their durability in actual customer and real world situations

We do not supply cheaper “similar looking” versions of our selected products
